

SURFACTANTS & DETERGENT ADDITIVES

Ginasul 36468

DESCRIPTION

Alpha Olefin Sulphonate (AOS liquid). A clear liquid typically used in liquid detergents and cleaners as a foaming agent. It is also used in wool scouring whereby it removes grease from coatings whilst preserving colour and texture.

FEATURES

- Easy to pour.
- Can be used in hard and soft water.
- Generates considerable foam and has a high foam stability.
- Readily biodegradable.
- Reduces the surface tension of water significantly in parts per million concentrations.
- Used in leather processing as a cleaning agent and in the wet processing of textiles.

PACKAGING

Ginasul 36468 is available in drums.
